Greetings!

Welcome to this season as we enjoy a short "Prelude" before beginning performances in the spectacular new Wagner Noël Performing Arts Center. We are looking forward to a long and successful association with this grand hall. To begin that association we have planned a wonderful season of great music to share with you. World-class flutist, and former winner of our own National Young Artist Competition, Christina Jennings helps us open the season along with the majestic Brahms Symphony No. 1. MOSC's own co-principal trumpet Eric Baker will perform the Arutunian Trumpet Concerto, followed by the profound and exhilarating Fifth Symphony of Shostakovich. Holst's epic work The Planets, performed in tandem with amazing video produced by NASA, will thrill you. The most recent winner of our National Young Artist Competition, pianist Kyle Orth, will share Liszt's chilling Totentanz, followed by the beloved New World Symphony of Dvořák. And our Masterworks series will come to an rousing close with "Something Old, Something New" including the music of exciting young American composers Carter Pann and Christopher Theofanidis, and the great master, Mozart.

Our season of Pops performances looks to be fun and enjoyable as always. As we leave the CAF, our traditional home for pops over the years, for the Wagner Noël PAC, we'll bring you the music of Elton John, Doris Day, the thrilling "Texas Tenors," the delightful tradition of Holiday Pops, and a special stand-alone performance by the Vienna Boys Choir.

It is going to be a fantastic season of great music that will appeal to everyone. Come share it with us. You don't want to miss this glorious musical "Prelude!"

Best wishes,

Gary Lewis
Music Director and Conductor, Midland-Odessa Symphony Orchestra

Pops I: Carrie Tillis sings "Doris Day"

Saturday, October 1, 2011

When a name like Tillis shows up with a lilting Nashville drawl, one might wonder if there is any relation to the trademark, country music name. The simple answer is yes. What is more surprising is the rest of the package that Carrie, daughter to country legend Mel Tillis and sister to superstar Pam Tillis, brings to the table.

Singing Rogers and Hammerstein, Porter and Berlin, Tillis transports us with her authentic style and delivery, captivating the audience with a melody that makes us ache for the old days. Where she feels most at home, the symphony concerts may very well be the platform that sends Carrie into the wide recognition she deserves.
